EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Bobowiec on August 27, 2004.

The application has been amended as follows:

In the Claims:

Cancel claim 8.

Cancel claim 1 and replace it with the following:

-- 1. A single-panel color image display apparatus comprising:

a light source emitting light;

a colored light separator having a plurality of dichroic filters of a reflective type separating the light emitted from the light source according to wavelength, and a dichroic filter reflecting a red light beam being disposed lastly among the plurality of dichroic filters;

a scrolling unit having a spirally arranged array of lens cells and obtaining an effect of a linear motion of a lens array due to the rotation of the spiral array of the lens cells so that scrolling operation is performed;
and

a micro display controlling the light separated by the colored light separator

according to color on a pixel-by-pixel basis according to an input image signal and forming a color image. --

In claim 9, line 1, change "claim 8" to - - claim 1 - -.

In claim 11, line 1, change "claim 8" to - - claim 1 - -.

In claim 12, line 1, change "claim 8" to - - claim 1 - -.

In claim 13, line 1, change "claim 8" to - - claim 1 - -.

Claims 1-7 and 9-19 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art neither shows nor suggests a single-panel color image display apparatus comprising all of the elements of claim 1 and in particular, the combination as follows:

"a colored light separator having a plurality of dichroic filters of a reflective type separating the light emitted from the light source according to wavelength, and a dichroic filter reflecting a red light beam being disposed lastly among the plurality of dichroic filters" and

"a scrolling unit having a spirally arranged array of lens cells and obtaining an effect of a linear motion of a lens array due to the rotation of the spiral array of the lens cells so that scrolling operation is performed".

The prior art neither shows nor suggests a single-panel color image display apparatus comprising all of the elements of claim 16 and particularly:

“a scrolling unit having a spirally arranged array of lens cells and obtaining an effect of a linear motion of a lens array due to a rotation of the spiral array of the lens cells so that scrolling operation is performed, the scrolling unit having a mask at a boundary portion between the lens cells of the scrolling unit, preventing color mixture among colored light beams”.

The prior art neither shows nor suggests a single-panel color image display apparatus, comprising all of the elements of claim 17 and in particular, the combination as follows:

“a spiral array of lens cells scrolling the focused light, the lens cells having a mask at a boundary portion between the lens cells;

a colored light separator separating the scrolled light having a plurality of dichroic filters to separate the scrolling light, each of the plurality of dichroic filters reflecting incident light of a different wavelength.”

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bradley U.S. Patent 5,845,981 teaches a multi-color-band scrolling across single-panel light valve.

Janssen et al. U.S. Patent 6,619,802 B2 teaches a multi-stripe scrolling for color projection.

Hwang U.S. Patent 6,588,906 B2 teaches single-panel color image display apparatus and method thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
